

MISSION STATEMENT

This auxiliary session is aimed at enhancing the understanding of procedures in implant dentistry. The program will address each facet of the implant process and guide team members to work effectively as a team. A major goal is to evaluate the interaction of implant patients and team members and review methods the team can apply to help guide patients through implant therapy and its various components to help create an efficient and effective implant team.

OBJECTIVES

At the completion of the one and a half day auxiliary session attendees will:

- Develop an appreciation for the role of dental implants in the maintenance of oral health
- Review biomaterials used in dentistry
- Develop ways to enhance your career in dentistry
- Understand treatment planning and esthetics in dental implant therapy
- Understand the best methods for patient oral hygiene around implants
- Learn effective communication skills to use with patients

FRIDAY, APRIL 27, 2012

3:00 p.m. to 3:30 p.m. **Break**

Auxiliaries will receive 11 credit hours for both days.

A major goal of the ADIA educational programs is to help create well-rounded, cross trained auxiliaries. There is value in having a team that is trained in ALL aspects of implant dentistry, as well as, the personal value the auxiliary will possess. We hope that all team members will aspire to achieve Fellowship in the ADIA. One means of attaining this goal is to be sure to attend each of the certification programs regardless of your given position in the practice. We respect the individual needs of our attendees and encourage them to review the doctors' main podium topics for areas of advanced needs and interests with attendance at no cost.

The ADIA has gone "Green" and we will no longer provide printed handouts for participants at meetings. ADIA pre-registered participants will receive an email with a password to access the ADIA website in order to print the handouts themselves. Handouts will be available on the website 2 weeks prior to each meeting and for 3 weeks after. It is important that all ADIA registrants provide their email address to the main ICOI office at info@dentalimplants.com. For onsite registrants, the ADIA web address and password will be provided in the registration packet. In this way, on site registrants can print the handouts at their hotel or wait until after the meeting.

For more information please go to www.adiaonline.org.
