

WORLD CONGRESS XXXI

“The Future of Implant Dentistry”

Tokyo Japan, October 3~5, 2014
Tokyo International Forum

<http://2014-icoi-world-congress.info/>

MISSION & OBJECTIVES

Mission:

This ICOI World Congress is aimed at giving attendees a balanced view of the scientific basis for the future of implant dentistry. Surgical and prosthetic research and techniques will be presented to give the clinician a thorough understanding of simple to advanced implant procedures. Treatment planning, cone beam diagnostics, and adjunctive procedures necessary for successful implant cases will also be presented. The symposium where implant dentistry has come from, where we are and look ahead to the future of implant dentistry.

Upon completion of this symposium attendees will:

- Learn regenerative techniques for use in implant dentistry
- Review orthodontics in implant dentistry
- Understand surgical approaches that result in esthetic success
- Learn how to establish a successful dental practice
- Review when grafting is necessary
- Understand new protocols for sinus augmentation

Dear Colleagues:

It is our honor and privilege to welcome you to ICOI's 31st Annual World Congress here in Tokyo, Japan sponsored by ICOI's Asia Pacific section. Participants should expect three days of the highest level of international dental implant education and research. This congress will focus on "The Future of Implant Dentistry". The speakers represent a blend of experienced clinicians and seasoned academicians who will share their combined wealth of knowledge.

We all must recognize and thank our Japanese committee members for their hard work and organizational abilities.

Although the focus of this World Congress will largely be displays and representations of clinical cases as well as, surgical and prosthetic techniques, ample opportunity will be given to speakers to present current research, both published and "in press", providing insight into future perspectives in Implant Dentistry.

We look forward to joining you and learning together the many new advances in Implant Dentistry and associated fields. This World Congress will be a truly outstanding clinical and education experience of a lifetime.

Sincerely,

Jon B. Suzuki, DDS, PhD, MBA &
Koichi Ito, DDS, PhD, MSD

Practical Solutions for Immediate Full Arch Restoration

Presented by: Joseph R. Carpentieri, DDS

Associate professor at Columbia University College of Dental Medicine.

Dr. Carpentieri maintains a private practice limited to prosthodontics in White Plains, New York.

PROGRAM DESCRIPTION:

Patients with debilitated dentition often seek rehabilitation to quickly regain their confidence and quality of life. Clinicians can offer a treatment solution for immediate full arch restoration to meet patient demands and expectations. This program is designed to show participants a step-by-step, practical approach to deliver a provisional prosthesis on the day of implant placement. The course will also focus on the steps necessary to create and deliver the definitive prosthesis.

THE 2nd ADIA ASIA-PACIFIC SECTION MEETING

Friday, October 3, 2014

9:00AM to 4:00PM — Glass building G701

Participants must have completed the hygienist certification program to train in the Implant Certified Hygienist Leadership Program. Leaders will gain expertise related to surgical, prosthetic and maintenance of dental implant patients. Leaders will also learn treatment planning and essential communication skills. Upon completion of this program and passing of a written test, a certificate of completion will be awarded as ADIA Certified Hygienist Leader and you will be able to participate in future programs.

Presented by Lynn D. Mortilla, RDH Executive Director, ADIA

Risk Factors in Implant Dentistry

- Patient health and dental histories
- Medical conditions and disease processes affecting implant therapy
- Considerations and contraindications to implant treatment

Maintenance and Evaluation Procedures

- Professional care, armamentaria, and techniques
- Client education and care
- Evaluation and post-treatment care

Post-Operative Care and Complications

- Post-operative recommendations
- Oral care instruction
- Management of implant complications and failures

Role of Interdisciplinary Health Care Providers

- Documentation
- Patient and Community Education

Educator Training

- Reference material, literature citation, gathering research and materials
- Presentation of science and cases
- Communication skills
- Visual aids, creating a PowerPoint
- Handout/Reference Sheets

Lynn D. Mortilla, RDH, has spent two decades working in dentistry. She is a graduate of the dental hygiene program at the State University of New York at Farmingdale. She is the Director of Operations for the International Congress of Oral Implantologists and is the Executive Director of their auxiliary section, the ADIA (Association of Dental Implant aeducation for auxiliaries via certification programs. GENERAL INFORMATION

POSTER PRESENTATIONS

Saturday, October 4, 2014 | 12:00NOON to 1:00PM

The perfect way to get involved in an ICOI meeting is through participation in our Poster presentation competition. It allows for presenters to interact with colleagues in a social, yet instructive manner.

Poster presentations, will be held on Saturday, October 4th in the Glass building G502. Poster presentations should display a challenging case in a limited time format, i.e. 5-7 minutes, so that the case can be repeated as new observers gather. Poster presentations will be placed (tacked or taped) on boards at the beginning of the symposium and will remain on display throughout the Congress. Poster presenters should be at their posters to answer inquiries during the Welcome Reception. All presentations will be judged, with the winners receiving awards and main podium consideration for future ICOI meetings.

REMEMBER, ALL FELLOWS, MASTERS AND DIPLOMATES WHO CONDUCT POSTER PRESENTATIONS HELP FULFILL THEIR FIVE-YEAR MAINTENANCE REQUIREMENTS.

Parties interested in conducting a Poster presentation must request an application. All regions except Asia-Pacific contact:

Dr. Avi Schetritt, dravi@perio.org

Asia-Pacific contact:

Sayuri Tsai, apsecretary@icoi-ap.org

Requests must be submitted by August 1, 2014 for consideration.
