

ICOI World News

INTERNATIONAL CONGRESS OF ORAL IMPLANTOLOGISTS

OCTOBER 2010

Dr. Hom-Lay Wang is Elected ICOI President

Dr. Hom-Lay Wang was installed as ICOI President at the World Congress in Hamburg, Germany, August 27, 2010. He will serve as ICOI President until 2013.

Dr. Wang received his DDS from Taipei Medical College in Taipei, Taiwan, his MSD from Case Western University in Cleveland, Ohio and a PhD in Philosophy from Hiroshima University in Japan. Hom-Lay is a Professor of Periodontics and Director of Graduate Periodontics at the University of Michigan. He is Co-Chair, Director and Diplomate of the American Board of Periodontology. Dr. Wang also serves as research advisor for Eng. A.B. for Growth Factors and Bone

Regeneration, King Saud University, Riyadh, Saudi Arabia. He has published over 200 scientific articles and is editor or assistant editor for several dental journals in the U.S. and abroad.

We congratulate Hom-Lay and look forward to three years of continued growth under his presidency.

ICOI Winter Meeting Returns to Bellagio Hotel in Las Vegas

Buoyed by past successes at this venue, ICOI's Winter Implant Symposium for 2011 will once again be held at the superb Bellagio Hotel in Las Vegas, Nevada. The dates for this meeting will be February 10-12, 2011.

Dr. Michael Pikos, Scientific Chair for this event has put together a world-class faculty for this symposium. Following a wide range of hands-on pre-symposium workshops conducted by our sponsors which will take place Thursday morning, February 10th, the General Session will commence at 1:00 p.m. on Thursday afternoon with the theme of Cone Beam CT and Bioactive Modifiers. Speaking on these topics will be Drs. Scott Ganz, Alan Rosenfeld, James Rutkowski, Joseph Choukroun and Mr. Daniel Llop. Friday's session will focus on Esthetics with renowned speakers Drs. Jaime Lozada, Giuseppe Cardaropoli, Nick Caplanis, Nick Elian, Mike Pikos, Pat Allen, Joseph Kan,

Hom-Lay Wang, Zeev Ormianer, John Russo, Alvaro Ordonez, Nigel Saynor and Homayous Zadeh.

The Saturday program will be devoted to Innovations and Immediate Load with Drs. Natalie Wong, Ady Palti, Tim Hottel, Jeff Ganeles, Lyndon Cooper, George Romanos, Carl Misch and Dan Spagnoli providing the lectures.

Biologic Solutions

BioHorizons comprehensive Biologic product portfolio offers a wide range of evidence-based regeneration options to ensure ideal site development. Delivering optimal esthetics and successful implant placement is the goal of our proven hard and soft tissue products.

- **MinerOss[®]** – blend of mineralized allograft cancellous and cortical chips that provide an osteoconductive scaffold for bone regeneration

- **Mem-Lok[®]** – resorbable collagen membrane that is cell occlusive and slowly resorbing to promote clot maintenance and bone formation

- **AlloDerm[®]** – regenerative tissue matrix for use as an effective alternative to palatal tissue for soft tissue augmentation*

ICOI Las Vegas Winter Meeting

Continued from front page

There will be another rousing, Table Clinic/Poster Presentation competition held on Thursday during the Welcome Reception in the Exhibition Hall. Please visit our website at www.icoivegas2011.org for more information.

Additionally, the ADIA will have a full 2 ½ day program for staff members. Dentists should plan to bring their team to this event and, among other things, learn how to “sell” implant cases to patients. These invaluable instructive courses pay for themselves. Your staff should be able to better assist the doctors with patient care (hygienists and assistants) and with management of their patients (front office staff).

We have negotiated an excellent room rate at the Bellagio for this symposium. Delegates will get the rate of \$189 per night for this meeting. Please contact the Bellagio as soon as possible as rooms at this rate are going fast. Be sure to identify your meeting, the ICOI Implant Symposium, to get this reduced rate. You can reserve your room by calling the Bellagio directly at toll free 888-987-6667 / 702-693-7444 or by going online at our website, www.icoivegas2011.org.

Email Updates Requested

The 21st Century has dictated that we now must all use the internet and communicate through emails. As you know, the ICOI utilizes emails to report upcoming meeting information and other important membership benefits.

Now we have a problem....

Many of the email addresses we have for our members are changed or OUTDATED. As a result, many emails to members are being returned. We lost contact with you.

We are asking all members to go online and make sure that your membership information and especially your email address is correct. You can change your membership information very easily. Simply go to our website, www.icoi.org click on, “Membership”/“Renew or Update Membership” and enter your ICOI Member ID number and Zip Code. This will bring up your information.

Many thanks.

Upcoming Meetings of Interest

Columbia University/ICOI Implant Symposium
December 10-11, 2010, New York, NY
Our first joint meeting with this Ivy League school will be held at Columbia and has a very strong Scientific Program designed by Dr. Dennis Tarnow.

ADA CERP® | Continuing Education
Recognitive Program

ICOI is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

ICOI is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by AGD for Fellowship, Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. The current term of approval extends from April 1, 2010 to March 31, 2014. Provider ID# 217378.

ICOI World Congress/DGOI International Congress Held in Hamburg, Germany

ICOI'S World Congress XXVII and the DGOI's International Congress VII took place August 26-28, 2010 at the CCH Convention Center in Hamburg, Germany. Over 800 attendees defied the presence of a worldwide economic recession to flock to this beautiful harbor city on the Elbe River and learn the latest, "Innovations of Oral Implantology with Digital Planning and Tissue Engineering". This World Congress was held with our German Component, the Deutsche Gesellschaft fuer Orale Implantologie (DGOI), with special thanks to Karl-Heinz Glaser, DGOI Executive Director, for his efforts! The Scientific Program was organized by Drs. Hom-Lay Wang, Georg Bayer and Ady Palti. As has become customary, Dr. Marius Steigmann also designed a half-day program for the "Young Implantologists".

Dr. Avi Schetritt, once again Chaired our Table Clinic/Poster Presentation competition. A record number of 60 delegates presented clinics and posters. Receiving the 1st Place award in this competition was Dr. Kunitero Nagahara from Mizuho-shi, Japan. His title was "The Use of Cell Sheets Derived From Autogenous Periosteum as a Bone Regenerative

Material". Dr. Rohini Verma from Bern Switzerland received the 2nd place award with his title "Critical Appraisal of Radiographic Parameters in the Evaluation of Peri-implant Bone Change". And our 3rd place winner was Dr. Amnon Mutsafi from Rehovot, Israel with the title "Practical Solutions for Dental Implant Complications". Our thanks to all of the delegates who helped make this portion of the Congress such a success.

Nearly 80 manufacturers exhibited at this Congress and their contributions are greatly appreciated by the ICOI and DGOI. We can't do it without you!

Hundreds of guests enjoyed the Welcome Reception in the Exhibit Hall on Thursday

night as this was an opportunity to renew old friendships with our international colleagues and to view the Table Clinic and Poster Presentations.

The Awards' Ceremony was held on Friday evening when many doctors received their advanced credentials in the ICOI and in the DGOI. We began the evening with the presentation of the **Diplomates**. Receiving their certificates and medallions for Diplomat were the following:

- Dr. Dr. Hakan Akincibay** – Ankara, Turkey
- Dr. Mutaz Alghazzi** – Der Ezzor, Syria
- Dr. Jochen K. Alius** – Nuernberg, Germany
- Dr. Mohamed Samih Alsrouji** – Taif, Saudi Arabia
- Dr. Masami Arai** – Tokyo, Japan
- Dr. Jae-Hyuk Ban** – Cheongju, South Korea
- Dr. Min Ki Bang** – Busan, South Korea
- Dr. Sebastian Patrick Bowien** – Kraichtal, Germany
- Dr. Louise Brochu** – Montreal, Quebec Canada
- Dr. Suminori Echizenya** – Hokkaido, Japan
- Dr. Tamenari Endo** – Seki, Gifu Japan
- Dr. Andres Fernandez-Jimenez** – Linares, Spain
- Dr. Carlos Ferre-Lopez** – Motril, Granada Spain
- Dr. Alexander Fischer** – Berlin, Germany
- Dr. Shinichi Fukasawa** – Tokyo, Japan
- Dr. Seiji Fukui** – Odawara, Japan
- Dr. Kazutaka Fukushima** – Tokyo, Japan
- Dr. Yoshihide Furuichi** – Otsu, Japan
- Dr. Kichihei Goto** – Miyagi, Japan
- Dr. Anne Gresskowski** – Nuernberg, Germany
- Dr. Mustafa Guven** – Istanbul, Turkey
- Dr. Woo Hyung Ha** – Cheongju-si, South Korea
- Dr. Sun Deok Han** – Incheon, South Korea
- Dr. Takashi Hasegawa** – Hyogo, Japan
- Dr. Norihito Hayashi** – Ehime, Japan
- Dr. Teruaki Homma** – Tokyo, Japan
- Dr. Kyung Jae Hong** – Seoul, South Korea
- Dr. Hiroyasu Iiyama** – Saitama, Japan
- Dr. Kenju Iwaki** – Saitama, Japan
- Dr. Gyu-Ho Jung** – Seoul, South Korea
- Dr. Toshiki Kanehira** – Kyoto, Japan
- Dr. Hyuk Kim** – Seoul, South Korea
- Dr. Il Woong Kim** – Uijeongbu-si, South Korea
- Dr. Ki Hyun Kim** – Pusan, South Korea
- Dr. Kyoung-Tak Kim** – Kyung-Buk, South Korea
- Dr. Young Tae Kim** – Seoul, South Korea

The Asia-Pacific Board Meeting was held at the World Congress in Hamburg. Seen above are: (seated, from left to right) Kate Matsumoto, Executive Director, A/P SECTION, Dr. Jon Suzuki, ICOI President-Elect, Dr. Kenneth Judy, ICOI Co-Chair, Craig Johnson, ICOI Executive Director. (First row standing, left to right) Dr. Tran Hung Lam (Vietnam) Dr. Hermogenes Villareal (Philippine), Dr. Yen-Ting Chen, Dr. Chun-Yen Liu (Taiwan), Dr. Van Tu Hien Vo (Vietnam), Dr. Tung-Yuan Wang, Dr. BJ Kuo (Taiwan), Dr. Senichi Suzuki (Japan), Dr. Dong Seok Sohn (Korea), D. Victor Zhong (China), Dr. Tun-Wei Lin (Taiwan). (Second row standing, from left to right) Dr. Chi-Ming Wu, Dr. Ping-Hsien Huang, Dr. Hung-Cheng Chiu (Taiwan), Dr. Yukinobu Fukuoka, Dr. Yoshiro Iida, Prof. Kido, Prof. Nagahara (Japan).

Two other awards were presented to the 2009 winners for excellence in manuscript submission in our journal, *IMPLANT DENTISTRY*.

The Ralph V. McKinney Jr. Annual Award in Basic and Clinical Research went to Drs. Senay Canay and Kivanc Akca.

The Charles E. English Annual Award in Clinical Science and Techniques went to Drs. Alain Simonpieri, Marco Del Corso, Gilberto Sammartino and David M. Dohan.

Finally, the Kenneth W.M Judy International Education Award, went to Dr. Jon Suzuki. The award recognizes significant contributions to implant education and/or research and to furthering the mission of the ICOI.

Dr. Georg Bayer, DGOI President presented their highest award, the Expert in Oral Implantology, to the following DGOI/ICOI members: Drs. Jochen Klaus Alius, Sebastian Patrick Bowien, Alexander Fischer, Anne Gresskowski, Frank Lösser, Gerhard Reif, Jan Tühscher, Thorsten Wilde, Holger Wilms, Gabi

Weissman and Andreas Groetz MSc. Dr. Bayer presented a special honorary life member award to the former DGZI President Dr. Manfred Lang.

Following the Awards Ceremonies, there was a dinner at a restaurant in the Hamburg harbor, the Rickmer Rickmers. Unfortunately, the limited seating of this venue left some delegates out since the event, as advertised, sold out very early.

There were a number of large delegations that came to this Congress and we would especially like to thank the delegations from Japan, Korea, Vietnam, Turkey, Italy and Iran. In true international support, this World Congress drew delegates from the following countries: Australia, Bangladesh, Brasil, Canada, China, Egypt, France, Germany, Greece, Hong Kong, India, Iran, Israel, Italy, Japan, Korea, Libya, Lithuania, Mexico, Nigeria, Norway, Philippines, Poland, Romania, Saudi Arabia, Scotland, Singapore, Slovakia, South Korea, Spain, Switzerland, Turkey, Ukraine, United Arab Emirates, United Kingdom, USA and Vietnam.

Members of the ICOI and DGOI Boards, in front row, with those receiving DGOI's Experts in Oral Implantology certification.

Dr. Kivanc Akac (left) received the Ralph V. McKinney Award from Dr. Hom-Lay Wang.

Dr. Jon Suzuki (left) receives congratulations from Dr. Judy as recipient of the Kenneth W.M Judy International Education Award for 2010.

Recipients of the Charles E. English award presented by ICOI President, Dr. Hom-Lay Wang.

Temple University and Japanese Dentists Visit Baden-Baden and Finish their Program in Advanced Dental Management in Hamburg

Twenty-eight Japanese dentists who have just completed a multi-day course with several venues, had their final instruction given by Dr. Ady Palti at his clinic in Baden-Baden and concluded the course at ICOI World Congress in Hamburg. Seen at right are the doctors as they posed with Dr. Palti, right of center and Dr. Jon Suzuki, Head of CE at Temple. With Drs. Palti and Suzuki are Kate Matsumoto, ICOI Executive Director for the Asia Pacific section and the interpreter.

AFRICA

As reported in the June 2010 ICOI World News, a select group of dentists from East African countries completed an intensive 21-day distance learning module and 6-day mini-residency spanning November 2009 and March 2010 under the tutelage of Dr. Christopher Ogunsalu. Upon completion of the training, all joined ICOI. Seven Fellowships, two Masterships and one Diplomate were awarded at a ceremony on June 6, 2010 presided over by Dr. Ambrose Obiechina, ICOI Ambassador and former Dean of Ibadan College of Dentistry.

Institut Canadien d'Implantologie Presents ICOI Fellows in Paris

ICOI in Paris, ville lumière.

Under the initiative of Dr. Yvan Poitras, the Institut Canadien d'Implantologie, as an active affiliate Society, organized a Study club meeting last June in Paris. Reuniting dentists from France and Quebec, the two day seminar happened in the language of Molière.

On the theme "The past 20 years in implantology, How to look for the next decade", lecturers coming from Canada, Drs. Yvan Poitras, Jean Routhier, from France, Joseph Choukroun and from Germany, Dr. Ady Palti were present.

On the evening of June 29th, a Special Award Ceremony occurred at Le ciel de Paris at the top of the Tour Montparnasse. One Master and fourteen Fellows were presented on this occasion. Both ICOI Ambassadors, Drs. Yvan Poitras and Ady Palti, also ICOI's President, officiated at this ceremony.

INTERNATIONAL CONGRESS OF ORAL IMPLANTOLOGISTS (ICOI) JOINS OTHER PROFESSIONAL ORGANIZATIONS IN ENDORSING DEAR DOCTOR MAGAZINE

Trusted Consumer Education Magazine Receives Seal of Approval from Industry Voice

Fishkill, NY (June 3, 2010) — Dear Doctor – Dentistry & Oral Health magazine, the nation’s leading consumer publication on dental and oral health, has announced that the International Congress of Oral Implantologists (ICOI) is the latest professional organization to endorse its publication. In addition to being the world’s largest dental implant organization and provider of continuing dental implant education, the ICOI is devoted to providing implant education to the entire dental team to better serve its patients.

Dear Doctor is the premier provider in dental education for consumers, and our quarterly magazine details an exhaustive section on implantology. This demonstrated commitment to dental implant patient education makes for an ideal partnership in helping ICOI members promote implant dentistry and their organization. It also provides the ICOI with a platform for collaborating with a national magazine to provide consumers with easy-to-understand articles

focused on real-world dental implant issues and treatments,” said Dr. Mario Vilardi, president and publisher of Dear Doctor – Dentistry & Oral Health. He continued, “As for Dear Doctor, we are elated to have such a prestigious, internationally-renowned organization recognize our magazine as an excellent patient educational resource with great credibility for consumers. And with this new partnership, we can continue to set lofty goals for providing concise, unbiased and accurate information on implantology.”

This new partnership kicks off with an ICOI-approved feature article in the magazine’s upcoming 2010 issue featuring Vanna White, the reigning queen and face of one of America’s most beloved game shows, “Wheel of Fortune.” It will continue with all future issues. “While our organization’s goals have been focused on continuing education for the dental team,” said Dr. Kenneth W.M. Judy, co-chairman of the ICOI’s

Board of Directors, “we are excited about the patient education opportunities our endorsement provides for both the ICOI and Dear Doctor.”

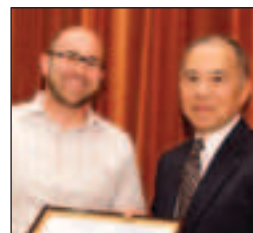

About Dear Doctor:

Dear Doctor – Dentistry & Oral Health is a quarterly dentistry magazine written exclusively by dental healthcare professionals for the education and well-being of the general public. Written in easy-to-understand language, Dear Doctor aims to open the lines of communication between patients and dental professionals by providing patients with the necessary education to make confident, informed healthcare decisions. Learn more at www.deardoc.com

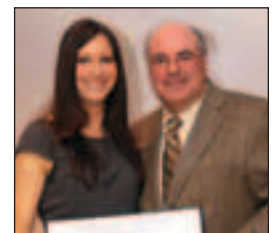

ICOI/Sullivan-Schein Pre-Doctoral Awards

At right are the winners of the annual ICOI/Sullivan-Schein Pre-Doctoral Award from Stony Brook and Temple Universities.

This award is bestowed on that person who displays the most expertise and devotion to the science of oral implantology/implant dentistry at his/her dental school. **A total of 45 schools participated this year.**

Hal Cohen received his award from Dr. Jon Suzuki from Temple University.

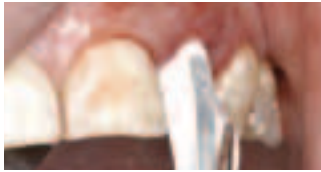

Ms. Anita Stavin’s award was presented by Dr. Steven Zove from Stony Brook University

PRESERVE BONY ARCHITECTURE IN COMPROMISED EXTRACTION SITES

Extraction sites with deficient structural support (ex. buccal defects) often require **tenting membranes to prevent collapse into the defect**. In these cases, titanium-reinforced membranes help reshape the site to the original dimensions of the ridge. Although primary closure may be obtained, Cytoplast® titanium-reinforced membranes are designed to withstand exposure and prevent bacterial penetration^{1, 2, 3}, making them especially well-suited for extraction site reconstruction.

1. Fotek PD, Neiva RF, Wang HL. Comparison of dermal matrix and Polytetrafluoroethylene membrane for socket bone augmentation. J Periodontol 2009;80:776-785 2. Hoffman O, Barteek BK, Beaumont C, Kasaj A, Deli G, Zafiroopoulos GG. Alveolar bone preservation in extraction sockets using non-resorbable dPTFE membranes: A retrospective non-randomized study. J Periodontol 2008;79:1355-1369 3. Barber HD, Lingnelli J, Smith BM, Barteek BK. Using a dense PTFE membrane without primary closure to achieve bone and tissue regeneration. J Oral Maxillofac Surg 2007;65:748-752

Due to a vertical root fracture, the entire buccal plate is missing. The titanium-reinforcement of the Cytoplast® Ti-250 Anterior Narrow allows easy placement and maintenance of space.

The dense PTFE membrane has a pore size of <math><0.3\mu\text{m}</math>, making it occlusive to both soft tissue cells AND bacteria. Primary closure is not necessary.

At two weeks, healing over the membrane is excellent – no inflammatory response and infection-free.

Because the membrane is left exposed, a non-surgical removal requires only topical anesthetic after 4 weeks of healing.

Two weeks after removal of the membrane, soft tissue has re-epithelialized over the socket. Soft tissue contours are preserved.

Re-entry at 4 months shows regeneration of the ridge to its original dimensions. Implants may now be placed in an optimal location.

Extraction Site Grafting Configurations

Shown actual size.

12 mm x 20 mm

Cytoplast® Ti-250 Anterior Narrow

Ideal for narrow single-tooth extraction sites, especially where one or more bony walls are missing.

14 mm x 24 mm

Cytoplast® Ti-250 Anterior Singles

Ideal for single-tooth extraction sites, especially where one or more bony walls are missing.

17 mm x 25 mm

Cytoplast® Ti-250 Buccal

For grafting large buccal defects.

20 mm x 25 mm

Cytoplast® Ti-250 Posterior Singles

For grafting posterior extraction sites and limited ridge augmentation.

ICOI Diplomate, Dr. C. Stephen Caldwell, Named 2010 Texas Dentist of the Year

Round Rock (September 20, 2010) – Dr. Stephen Caldwell, of El Paso, Texas, was named the 2010 Texas Dentist of the Year. The award has been presented by the Texas Academy of General Dentistry (TAGD) annually since 1965 and is considered one of the most prestigious honors a Texas dentist can earn. Individuals nominated for the award show a commitment to advancing excellence in dentistry through activism in organized dentistry, dedication to continuing education, and participation in charitable work and civic service.

Dr. Caldwell was one of 22 dentists, from around the state, nominated for this year's award.

Dr. Caldwell is a 1979 graduate of the University of Texas Dental Branch in Houston and went on to specialize in periodontics. He currently maintains a periodontal dentistry practice in El Paso. Dr. Caldwell focuses on implant-related restorative dentistry and from his gained expertise he now lectures around the country and is a sought-after presenter at dental conferences and dental schools. He is also on faculty at the Temple Dental School in Philadelphia and the Misch International Implant Institute in Detroit, which is a world-renowned institute focused on research, education and unique clinical applications of implant dentistry.

The IADR has a New President from Brasil

The IADR, the world's largest dental research organization, has elected Dr. Maria Fidela de Lima as its new President. This is recognized as a salute of recognition for Brasil's high quality of dental research. It may not be coincidental that Brazilian doctors are the most published in ICOI's journal, *IMPLANT DENTISTRY*. The ICOI is delighted to have received nearly 60 new members from Brasil this past month from our new Affiliate, ICOI BRASIL.

Keystone Dental on the Discovery Channel

Keystone Dental and ICOI member, Dr. John Russo, recently appeared on cable TV's the Discovery Channel and it's Health Heroes segment, which highlights innovative products in oral health. Dr. Russo demonstrated the use of Dyna Matrix, an extracellular membrane.

NewProduct Release

Osteogenics Biomedical Introduces Pro-fix™ Precision Fixation System

Osteogenics Biomedical announces the addition of a new fixation system, Pro-fix™, to its regenerative portfolio. Pro-fix™ includes self-drilling membrane fixation screws, self-drilling tenting screws, and self-tapping bone fixation screws. The Pro-fix™ system features a locking-taper cruciform drive system that allows easy pickup and safe transport of the screw to the surgical site. Osteogenics will first introduce 3 mm self-drilling membrane fixation screws designed to engage cortical bone without the need of a pre-drilled pilot hole. Self-drilling tenting screws and self-tapping bone fixation screws will be available this fall.
