

Become a Member of the World's Greatest Implantology Society

The ICOI provides more continuing implant education opportunities than any other implant organization. Our members have access to accelerated assistance for building implant dentistry into their practices.

WE ARE WORLDWIDE – OVER 100 COUNTRIES: The International Congress of Oral Implantologists (ICOI) founded in 1972, is a tax exempt, non-profit dental implant educational organization.

EDUCATION & RESEARCH: ICOI's primary mission has always been to globally educate all implant team members. However, we have extensively supported research worldwide by issuing grants through our Implant Dentistry Research & Education Foundation (IDREF).

MEMBERSHIP IS GROWING EXPONENTIALLY: Our membership includes General Dentists, Oral & Maxillofacial Surgeons, Periodontists, Prosthodontists, Endodontists, Orthodontists, Assistants, Hygienists, Office Management, Laboratory Technicians, Academicians, Researchers, Students, Industry Personnel, and even members of the public.

Advantages for “ICOI EUROPE” Members
